

THANK YOU!

Please be assured that any donation received will be put to very good use immediately, in our continued fight to save the lives of blood cancer patients across the West Midlands.

Every penny we receive really does make a huge difference and without the kindness of people like you, we wouldn't be able to continue the work we do.

Our message remains simple, the more funds we can raise the more nurses we can employ, the more lives we can save and every donation made helps us achieve this, so please accept our sincere thanks.

How to send your donation?

1 Cut off the form along the dotted line

2 Place into an envelope

3 Attach a stamp & post it to:

Cure Leukaemia
Studio 21b, Victoria Works
Vittoria Street
B1 3PE, Birmingham

You can also donate...

By phone: Call 0121 236 9202 to make a donation over the phone

Online: Visit our official donation page www.justgiving.com/cureleukaemia

What does Cure Leukaemia do?

A huge amount of work is being done to improve treatment options for patients in our region with blood cancers and we made tremendous progress during 2012 thanks to the support received both in the business sector and from the local community.

2013 will be a very special year for Cure Leukaemia, as we celebrate our 10th Anniversary after the charity was founded in 2003. Thanks to our fantastic supporters, the charity has gone from strength to strength in the fight to save more lives across the West Midlands. Since 2003, 30,000 patients have visited the centre of excellence and we have been able to:

- Leverage £21 million of free drugs for clinical trials which are having a worldwide impact
- Fund salaries for a number specialist nurses across the West Midlands network
- Donate £80,000 to Birmingham Children's Hospital to fund vital research

We have spent the last decade developing a tried and tested formula for delivering clinical trials that works. For every £1,000 donated to the charity we can leverage £10,000 of drugs. 10 years on, we're now ready to take the fight to the next level. We can and we want to do more. Join us, support us, and help Birmingham to find the cure.

Professor Charlie Craddock.

2013 will see the exciting launch of Cure Leukaemia for Kids. The aim of Cure Leukaemia for Kids will be to raise as much funds into research and run as many new pioneering drug trials that will help increase survival rates of children suffering from the disease. We will work with the Birmingham Children's Hospital and the Centre of Clinical Haematology at the QE to help find a cure.
